The Bruce Montgomery Foundation for the Arts honors the memory of Bruce Montgomery by providing financial support, through Springboard Grants, to talented individuals and student organizations (high school through college age) who are pursuing excellence in the performing arts.

For fifty years as Director of undergraduate performing arts at the University of Pennsylvania Bruce “Monty” Montgomery’s passionate dedication to mentoring students created a unique opportunity for young people to explore their talents, to hone their artistic skills and, finally, to spread their wings and fly.

Many of his students have gone on to distinguished careers in music, theater and cinema. Monty’s life work was the Foundation’s inspiration.

Ongoing fundraising efforts are critical to achieving our goal of providing significant financial support to future generations of musicians and artists.

Contributions are sought through major gifts, planned giving, periodic fundraising events, and a strong annual giving program.

*“Don’t be afraid to be magnificent!”*

~ Bruce Montgomery

This adage was often expressed by *Monty* just before the curtain went up on any given production. We’d like to believe that by committing to walk several miles, at our Musical Kazoo Walk, you too, will embrace this philosophy and opt to “magnificently” raise additional funds to support our Springboard Grants Program by getting friends, family, and colleagues to sponsor you!
